Index to Volume V--1955

INDEX OF AUTHORS

Adams, John E. (co-author), Cerebral metabolism of glutamic acid in multiple sclerosis, 100.

Amols, William (co-author), Vomiting: neural mechanisms and control by chlorpromazine, 645.

Arieff, Alex J. (co-author), Electrodiagnosis in poliomyelitis, 278.

Aring, Charles D., Clinical pathologic conference, 59. (co-author), Clinical pathologic conference, 732.

Arnold, Arthur, Osteogenic sarcoma of the tibia metastatic to the brain, 69.

Aronson, Neal (co-author), Chronic extradural hematoma of the posterior fossa, 215.

Ask-Upmark, Erik, Monthly periodicity of symptoms from the central nervous system, 584.

Barlow, Charles F. (co-author), Clinical pathologic conference, 131.

Barness, Lewis (co-author), Clinical pathologic conference, 208.

Basmajian, J. V. (co-author), Chlorpromazine and human spasticity, 856.

Bauer, Franz K. (co-author), Radioisotope studies in neuromuscular disease. 2. Studies in muscular dystrophy and myotonia dystrophica with sodium^{22} and potassium^{42}, 201.

Bender, Morris B. (co-author), Effect of barbiturates on latent motor deficits, 777.

Bentinck, Richard C. (co-author), Cerebral metabolism of glutamic acid in multiple sclerosis, 100.

Berg, Leonard R. (co-author), Prostigmin-induced muscle weakness in myasthenia gravis patients, 89. (co-author), Isonicotinic acid hydrazide in multiple sclerosis, 801.

Bergenstal, Delbert M. (co-author), Clinical pathologic conference, 131.

Bergman, Philip S. (co-author), Measurement of quadriceps reflex in spastic paralysis, 542.

Bernstine, Richard L. (co-author), Electroencephalography of the fetus, 362.

Bickford, Reginald G. (co-author), Effects of photic stimulation during sleep – a study of normal subjects and epileptic patients, 149.

Blahd, William H. (co-author), Radioisotope studies in neuromuscular disease. 2. Studies in muscular dystrophy and myotonia dystrophica with sodium^{22} and potassium^{42}, 201.

Borkowski, Winslow J. (co-author), Electroencephalography of the fetus, 362.

Botterell, E. H. (co-author), Neurosurgical experiences with diabetes insipidus, 449.

Brown, Joe R., Spontaneous bilateral labyrinthine deficit, 654.

Brzustowicz, Richard J., Combined trigeminal and glossopharyngeal neuralgia, 1.

Carpenter, Malcolm B., Status marmoratus of the thalamus and striatum – associated with athetosis and dystonia, 139. Ballism associated with partial destruction of the subthalamic nucleus of Luys, 479.

Carter, Sidney (co-author), Pseudohypoparathyroidism – clinical picture and relation to convulsive seizures, 297.

Chafetz, Morris E. (co-author), Kemadrin in the treatment of parkinsonism, 273.

Chou, Shelley N. (co-author), Systemic absorption and urinary excretion of RISA from subarachnoid space, 555.

Chusid, Joseph G. (co-author), Motor epilepsy of parietal lobe origin in the monkey, 108.

Clark, Edward C. (co-author), Neurologic signs and symptoms as early manifestations of systemic lupus erythematosus, 84. (co-author), Treatment of intracerebral hematomas in young and middle-aged patients, 567. (co-author), Effect of anosmia on the appreciation of flavor, 671.

Clarke, Edwin (co-author), Cervical myelopathy – a contribution to its pathogenesis, 861.

Cloward, Ralph B. (co-author), Spontaneous intraspinal hemorrhage and paraplegia complicating Dicumarol therapy, 600.

Cook, Robert E. (co-author), Western equine and St. Louis encephalitis, 223.

Dalle Ore, Giuseppe (co-author), Syndrome of Klüver and Bucy — reproduced in man by bilateral removal of the temporal lobes, 373.

Daly, David D. (co-author), Effects of photic stimulation during sleep — a study of normal subjects and epileptic patients, 149.

DeJong, Russell N., Editorial, 353.

Dennison, A. D., Jr. (co-author), Effect of reserpine upon the human electroencephalogram, 56.

Denny-Brown, D. (co-author), Clinical pathologic conference, 510.

Dobin, Norman (co-author), Electrodiagnosis in poliomyelitis, 278.

Dodge, Henry W., Jr. (co-author), Treatment of intracerebral hematomas in young and middle-aged patients, 567. (co-author), Effect of anosmia on the appreciation of flavor, 671.

Dodge, Philip R. (co-author), Clinical pathologic conference, 659.
Drake, Ralph L. (co-author), Ectopic pinealoma, 518.
Dugger, Gordon S. (co-author), Hypothalamic tumor – correlation between symptomatology, regional anatomy, and neurosecretion, 160.

Edstrom, Ricardo F. S. (co-author), Swelling of damaged brain tissue, 490.
Epstein, Joseph A. (co-author), Compression of spinal cord and cauda equina in achondroplastic dwarfs, 875.
Essex, Hiram E. (co-author), Swelling of damaged brain tissue, 490.
Ewert, Josephine C. (co-author), Mental status of children with convulsive disorders, 419.

Fabing, Howard D., Frenquel, a blocking agent against experimental LSD-25 and mescaline psychosis, 319. The dimensions of neurology, 603.
Farmer, Thomas W. (co-author), Neurologic manifestations of postpartum pituitary insufficiency, 212. (co-author), Clinical pathologic conference, 587.
Feiring, Emanuel H., Multiple intracranial expanding lesions of diverse origin, 535.
Fine, Jacob M. (co-author), Mycotic meningitis due to Candida albicans, 438.
Finerty, M. (co-author), Observations on the effect of Thorazine on cells in vitro. 1. General considerations and toxicity assays with slide cultures, 787.
Finley, Knox H. (co-author), Western equine and St. Louis encephalitis, 223.
Flowers, Charles A., Jr. (co-author), Neurologic manifestations of postpartum pituitary insufficiency, 212.
Foley, J. M. (co-author), Clinical pathologic conference, 510.
Forster, Francis M. (co-author), Temporal lobe seizures in the monkey, 329.
Foster, Jacob J. (co-author), Spontaneous carotid thrombosis, 821.
Frame, Boy (co-author), Pseudohypoparathyroidism — clinical picture and relation to convulsive seizures, 297.
Franklin, Donald A. (co-author), Mycotic meningitis due to Candida albicans, 438.
French, Lyle A. (co-author), Observations on the motor system following cerebral hemispherectomy, 11. (co-author), Examination of the sensory system in patients after hemispherectomy, 390. (co-author), Systemic absorption and urinary excretion of RISA from subarachnoid space, 555.
Friedman, Arnold P. (co-author), Cerebral metastases from a mixed tumor of the parotid gland, 435. Treatment of headache with reserpine, 805.

Gage, Robert P. (co-author), Mental status of children with convulsive disorders, 419.
Gamez, Gilberto (co-author), Clinical pathologic conference, 426.
Gardner, W. James (co-author), Photographic detection of unilateral masking in parkinsonism, 354.
Gherardi, Gherardo J. (co-author), Amyloid neuropathy, 847.
Gildea, Edwin F. (co-author), Ribosuria in muscular dystrophy, 412.
Gillen, H. W., Neurologic problems encountered as a result of diving, 723.
Glaser, Gilbert H., Neurologic manifestations in collagen diseases – problems of prognosis and treatment, 751.
Goldstein, Norman P. (co-author), Experimental allergic encephalomyelitis following administration of homologous brain lipid fractions, 550.
Goodman, Louis S. (co-author), Clinical trial of a new anticonvulsant, SKF No. 2599, 700.
Gordan, Gilbert S. (co-author), Cerebral metabolism of glutamic acid in multiple sclerosis, 100.
Grain, Gerald O. (co-author), Diffuse leptomeningeal carcinomatosis – clinical and pathologic characteristics, 706.
Green, Isadore, Acute hemiplegia in infectious mononucleosis, 366.
Green, Meredith W. (co-author), Mental status of children with convulsive disorders, 419.
Greenfield, J. Godwin (co-author), Clinical pathologic conference, 732.
Gross, Sidney W. (co-author), Cerebral metastases from a mixed tumor of the parotid gland, 435.
Gurdjian, E. S. (co-author), Experimental concussion – relation of acceleration to physiologic effect, 798.
Guthrie, Thomas C., Post-seizure purpura of the head and neck, 516. Head turning – a maneuver to elicit the neurologic signs of hoarseness and dysphagia, 594.

Haase, Guenter R. (co-author), Isonicotinic acid hydrazide in multiple sclerosis, 801.
Haddad, B. F. (co-author), Experimental concussion – relation of acceleration to physiologic effect, 798.
Hanna, Duke (co-author), Diagnosis and surgical therapy of chronic midline cervical disk protrusions, 494.
Harper, Harold A. (co-author), Cerebral metabolism of glutamic acid in multiple sclerosis, 100.
Heller, Irving H. (co-author), Hereditary sensory neuropathy, 15.

Hirschberg, Gerald G. (co-author), Measurement of quadriceps reflex in spastic paralysis, 542.
Horsey, W. J. (co-author), Neurosurgical experiences with diabetes insipidus, 449.
Huertas, Jorge (co-author), Temporal lobe seizuers in the monkey, 329.
Hutchin, Maxine (co-author), Cerebral metabolism of glutamic acid in multiple sclerosis, 100.

Jackson, Robert B., Primary atypical pneumonia with associated encephalomyelitis, 356.
Jacobs, Erwin M., Progressive facial hemiatrophy, 444.
Jaffe, Israeli A. (co-author), Prostigmin-induced muscle weakness in myasthenia gravis patients, 89.
Javid, Manucher (co-author), Nocardiosis of the central nervous system, 815.
Johnson, David R. (co-author), Observations on the motor system following cerebral hemispherectomy, 11. (co-author), Examination of the sensory system in patients after hemispherectomy, 390.

Karlson, Alfred G. (co-author), Experimental allergic encephalomyelitis following administration of homologous brain lipid fractions, 550.
Karr, Jean P. (co-author), Diffuse leptomeningeal carcinomatosis – clinical and pathologic characteristics, 706.
Katz, Isadore (co-author), Spontaneous dislocation of the atlanto-axial joint in rheumatoid spondylitis, 290.
Keith, Haddow M. (co-author), Mental status of children with convulsive disorders, 419.
Kelly, Michael, Constriction pain in muscle – ischemic or neural? 178.
Kibbe, Milton H., Clinical and laboratory findings in two hundred head injuries, 336.
Kies, Marian W. (co-author), Experimental allergic encephalomyelitis following administration of homologous brain lipid fractions, 550.
Klingman, Walter O. (co-author), Neurologic manifestations of magnesium depletion states, 691.
Kolb, Lawrence C. (co-author), Experimental allergic encephalomyelitis following administration of homologous brain lipid fractions, 550.
Kopeloff, Lenore M. (co-author), Motor epilepsy of parietal lobe origin in the monkey, 108.
Kopeloff, Nicholas (co-author), Motor epilepsy of parietal lobe origin in the monkey, 108.
Korengold, Marvin C. (co-author), Prostigmin-induced muscle weakness in myasthenia gravis patients, 89. (co-author), Isonicotinic acid hydrazide in multiple sclerosis, 801.
Kurland, Leonard T. (co-author), Epidemiologic investigations of amyotrophic lateral sclerosis. 2. Familial aggregations indicative of dominant inheritance, 182 and 249.

SUBJECT INDEX

Acceleration, in experimental concussion, 798.
Acute cerebral venous occlusion manifested by spontaneous subarachnoid hemorrhage, 675.
Acute hemiplegia in infectious mononucleosis, 366.
Alcoholics, presenile cerebellar ataxia in, 527.
American Academy of Neurology, seventh annual meeting program, 218.
Amino acids,
free, in cerebrospinal fluid, 767.
in treatment of muscular dystrophy, 887.
Amyloid neuropathy, 847.
Amyotrophic lateral sclerosis, familial aggregations indicative of dominant inheritance, 182 and 249.
Anosmia, effect on appreciation of flavor, 671.
Anticonvulsant, clinical trial of SKF No. 2599, 700.
Arteriovenous malformations, of choroidal artery and lesser vein of Galen, 745.
Ataxia, presenile cerebellar, in chronic alcoholics, 527.
Athetosis, associated with status marmoratus of thalamus, 139.
Atlanto-axial joint, spontaneous dislocation in rheumatoid spondylitis, 290.

Ballism associated with partial destruction of the subthalamic nucleus of Luys, 479.
Barbiturates, effect on latent motor deficits, 777.
Basilar arterial system, intermittent insufficiency, 625.
Bell's palsy, treatment with cortisone, 882.
Biochemical lesion, nature and extent in human epileptogenic cerebral cortex, 113.
Book Reviews, 76, 147, 221, 295, 369, 447, 525, 678, 747, 825.
Brain
damaged tissue, swelling of, 490.
lipid fractions, experimental allergic encephalomyelitis from, 550.
osteogenic sarcoma of tibia metastatic to, 69.

Calcified subdural hematoma, 520.
Candida albicans, mycotic meningitis from, 438.
Carcinomatosis, diffuse leptomeningeal, 706.
Carotid thrombosis, spontaneous, 821.
Case reports, 69, 72, 139, 212, 215, 284, 290, 356, 359, 362, 366, 435, 438, 444, 516, 518, 520, 596, 600, 671, 675, 740, 745, 815, 821.
Cauda equina, compression in achondroplastic dwarfs, 875.
Central nervous system,
nocardiosis of, 815.
periodicity of symptoms from, 584.
Cephalic tetanus, 381.
Cerebral cortex, epileptogenic, 113.
Cerebral infarction in migraine, 359.
Cerebral metabolism of glutamic acid in multiple sclerosis, 100.
Cerebral metastases from a mixed tumor of the parotid gland, 435.
Cerebral venous occlusion, manifested by spontaneous subarachnoid hemorrhage, 675.
Cerebrospinal fluid,
free amino acids, 767.
gamma globulin as a diagnostic test for multiple sclerosis, 573.
postmeningitic hydrocephalus and dual origin of, 72.
Cervical myelopathy – a contribution to its pathogenesis, 861.
Cervical disk protrusions, diagnosis and surgical therapy, 494.
Changing status of electroencephalography in neurologic practice, 827.
Children with convulsive disorders, mental status, 419.
Chlorpromazine
and human spasticity, 856.
control of vomiting by, 645.
Choroidal-lesser galenic arteriovenous malformations, 745.
Chronic extradural hematoma of the posterior fossa – a case with a diagnostic pneumoencephalographic finding, 215.
Clinical and laboratory findings in 200 head injuries, 336.
Clinical pathologic conferences, 59, 131, 208, 426, 510, 587, 659, 732, 809.
Clinical study of craniopharyngiomas occurring in persons over 40, 558.
Clinical trial of a new anticonvulsant, SKF No. 2599 – a preliminary report, 700.
Collagen diseases, neurologic manifestations, 751.
Combined trigeminal and glossopharyngeal neuralgia, 1.
Compression of spinal cord and cauda equina in achondroplastic dwarfs, 875.
Concussion, experimental – physiologic effect, 798.
Constriction pain in muscle – ischemic or neural? 178.
Convulsive disorders, mental status of children with, 419.
Cortisone, in treatment of Bell's palsy, 882.
Craniopharyngiomas in persons over 40, clinical study, 558.

Desoxyn therapy for nocturnal seizures – a preliminary report, 236.
Diabetes insipidus, neurosurgical experiences with, 449.

Diagnosis and surgical therapy of chronic midline cervical disk protrusions, 494.
Diagnosis and treatment of acute subdural empyema, 663.
Diagnostic localizing value of muscle atrophy in parietal lobe lesions, 30.
Diagnostic notes, 354, 594.
Dicumarol therapy, complicated by spontaneous intraspinal hemorrhage, 600.
Diffuse leptomeningeal carcinomatosis — clinical and pathologic characteristics, 706.
Dimensions of neurology, 603.
Diving, neurologic problems resulting from, 723.
Dystonia, associated with status marmoratus of thalamus, 139.

Ectopic pinealoma, 518.
Editorial, 353.
Effect of
  anosmia on the appreciation of flavor, 671.
  barbiturates on latent motor deficits, 777.
  combined afferent lesions on motor function, 269.
  photic stimulation during sleep — a study of normal subjects and epileptic patients, 149.
  reserpine upon the human electroencephalogram, 56.
Electrodiagnosis in poliomyelitis, 278.
Electroencephalogram, effect of reserpine on, 56.
Electroencephalography,
  changing status in neurologic practice, 827.
  of the fetus, 362.
Encephalitis, western equine and St. Louis — follow-up study in California, 223.
Encephalomyelitis,
  associated with primary atypical pneumonia, 356.
  experimental allergic, 550.
Epidemiologic investigations of amyotrophic lateral sclerosis. 2. Familial aggregations indicative of dominant inheritance, 182 and 249.
Epilepsy,
  effect of photic stimulation during sleep, 149.
  maternal and fetal factors in development, 77.
  motor, of parietal lobe origin in monkey, 108.
Epileptogenic cerebral cortex, biochemical lesion in, 113.
Examination of the sensory system in patients after hemispherectomy, 390.
Experimental allergic encephalomyelitis following administration of homologous brain lipid fractions, 550.
Experimental concussion — relation of acceleration to physiologic effect, 798.

Facial hemiatrophy, progressive, 444.
Familial aggregations indicative of dominant inheritance, in amyotrophic lateral sclerosis, 182 and 249.
Fetal and maternal factors in epilepsy, 77.
Fetus, electroencephalography of, 362.
Flavor appreciation, effect of anosmia on, 671.
Frenquel, a blocking agent against experimental LSD-25 and Mescaline psychosis – preliminary note on its clinical application, 319.

Gamma globulin in cerebrospinal fluid, diagnostic test for multiple sclerosis, 573.
Glutamic acid, cerebral metabolism in multiple sclerosis, 100.

Headache, treatment with reserpine, 805.
Head injuries, clinical and laboratory findings in 200 cases, 336.
Head turning – a maneuver to elicit the neurologic signs of hoarseness and dysphagia, 594.
Hematoma,
  calcified subdural, 520.
  chronic extradural, of posterior fossa, 215.
  intracerebral, treatment of, 567.
Hemiatrophy, progressive facial, 444.
Hemiplegia,
  acute, in infectious mononucleosis, 366.
  rehabilitation, 407.
Hemispherectomy,
  observations on motor system following, 11.
  sensory system examination after, 390.
Hereditary sensory neuropathy, 15.
Herniation of the medulla oblongata causing death in meningococcal meningitis, 596.
Hydranencephaly, 284.
Hydrocephalus, postmeningitic, illustrating dual origin of cerebrospinal fluid, 72.
Hypothalamic syndrome in rats with experimental lesions, 472.
Hypothalamic tumor – correlation between symptomatology, regional anatomy, and neurosecretion, 160.
  Infectious mononucleosis, acute hemiplegia in, 366.

Intermittent insufficiency of basilar arterial system, 625.
Intraspinal hemorrhage complicating Dicumarol therapy, 600.
Ischemia in tetany, sensory changes during, 461.
Isonicotinic acid hydrazide in multiple sclerosis, 801.

Kemadrin in the treatment of parkinsonism, 273.
Klüver and Bucy syndrome, reproduced in man by bilateral removal of temporal lobes, 373.
Korsakoff's psychic disorder, translation of original article, 394.

Labyrinthine deficit, spontaneous bilateral, 654.
Lesions,
  afferent, effect on motor function, 269.
  experimental, and hypothalamic syndrome, 472.
  multiple intracranial, 535.

Leukemia with predominant neurologic manifestations, 740.
Lupus erythematosus, neurologic signs and symptoms as early manifestations, 84.
Luys, subthalamic nucleus, ballism associated with partial destruction of, 479.

Magnesium depletion states, neurologic manifestations of, 691.
Maternal and fetal factors in the development of epilepsy. 2. Relationship to some clinical features of epilepsy, 77.
Measurement of quadriceps reflex in spastic paralysis, 542.
Medulla oblongata, herniation, 596.
Meningitis,
meningococcal, herniation of medulla oblongata causing death in, 596.
mycotic, due to Candida albicans, 438.
Mental status of children with convulsive disorders, 419.
Migraine,
cerebral infarction in, 359.
ophthalmoplegic, pathogenesis of, 311.
Mitchell, S. Weir, 242.
on gunshot wounds and other injuries of nerves, 468.
Monthly periodicity of symptoms from the central nervous system, 584.
Motor deficits, effect of barbiturates on, 777.
Motor epilepsy of parietal lobe origin in the monkey, 108.
Motor function, effect of combined afferent lesions on, 269.
Motor system, observations following cerebral hemispherectomy, 11.
Multiple intracranial expanding lesions of diverse origin, 535.
Multiple sclerosis,
cerebral metabolism of glutamic acid in, 100.
cerebrospinal fluid gamma globulin as diagnostic test for, 573.
isonicotinic acid hydrazide in, 801.
new scale for evaluating disability, 580.
Muscle
atrophy, diagnostic localizing value in parietal lobe lesions, 30.
constriction pain, 178.
weakness, Prostigmin-induced, 89.
Muscular dystrophy,
pathogenesis, 333.
radioisotope studies in, 201.
ribosuria in, 412.
treatment with amino acids and vitamins, 887.
Myasthenia gravis,
Prostigmin-induced muscle weakness in, 89.
Prostigmin-responsiveness in, diagnosis of, 612.
treatment, 728.
Mycotic meningitis due to Candida albicans – a four year recovery, 438.
Myotonia dystrophica, radioisotope studies in, 201.

Nature and extent of the biochemical lesion in human epileptogenic cerebral cortex – an approach to its control, 113.
Nerve injuries, S. Weir Mitchell on, 468.
Neuralgia, combined trigeminal and glossopharyngeal, 1.
Neurologic complications of pregnancy, 679.
Neurologic manifestations
in collagen diseases – problems of prognosis and treatment, 751.
of magnesium depletion states, 691.
of nasopharyngeal tumors, 868.
of postpartum pituitary insufficiency, 212.
Neurologic problems encountered as a result of diving, 723.
Neurologic signs and symptoms as early manifestations of systemic lupus erythematosus, 84.
Neurologic signs, maneuver to elicit, 594.
Neurologic symptoms with osteoid osteoma, 794.
Neurology, dimensions of, 603.
Neuromuscular disease, radioisotope studies in, 201.
Neuropathy, hereditary sensory, 15.
Neurosurgical experiences with diabetes insipidus, 449.
New scale for evaluating disability in multiple sclerosis, 580.
Nocardiosis of the central nervous system, 815.

Observations on the effect of Thorazine on cells in vitro. 1. General considerations and toxicity assays with slide cultures, 787.
Observations on the motor system following cerebral hemispherectomy, 11.
Osteogenic sarcoma of the tibia metastatic to the brain, 69.
Osteoid osteoma, neurologic symptoms, 794.

Pain, in muscle – ischemic or neural? 178.
Paralysis, a spastic, quadriceps reflex in, 542.
Paraplegia complicating Dicumarol therapy, 600.
Parietal lobe
lesions, muscle atrophy in, 30.
origin of motor epilepsy in monkey, 108.
Parkinsonism,
photographic detection of unilateral masking in, 354.
treatment with Kemadrin, 273.
treatment with Parsidol, 197.
Parotid gland tumor, cerebral metastases from, 435.
Parsidol in the treatment of parkinsonism, 197.
Pathogenesis of ophthalmoplegic migraine. 311.

Pediatric neurology, 419, 887.
Photic stimulation, effects during sleep, in normal and epileptic patients, 149.
Photographic detection of unilateral masking in
Pinealoma, ectopic, 518.
parkinsonism, 354.
Pituitary insufficiency, postpartum, neurologic manifestations of, 212.
Pneumonia, primary atypical, with associated encephalomyelitis, 356.
Poliomyelitis, electrodiagnosis in, 278.
Posterior fossa, chronic extradural hematoma of, 215.
Postmeningitic hydrocephalus illustrating dual origin of the cerebrospinal fluid, 72.
Postpartum pituitary insufficiency, neurologic manifestations of, 212.
Post-seizure purpura of the head and neck, 516.
Pregnancy, neurologic complications of, 679.
Presenile cerebellar ataxia in chronic alcoholics, 527.
Primary atypical pneumonia with associated encephalomyelitis, 356.
Prognostic value of sensory defect in rehabilitation of hemiplegics, 407.
Progressive facial hemiatrophy, 444.
Prostigmin-induced muscle weakness in myasthenia gravis patients, 89.
Prostigmin-responsiveness and the diagnosis of myasthenia gravis, 612.
Pseudohypoparathyroidism—clinical picture and relation to convulsive seizures, 297.
Psychosis, experimental, Frenquel blocking agent against, 319.
Pupillary reflex shapes and topical clinical diagnosis, 631.
Purpura, post-seizure, of head and neck, 516.

Quadriceps reflex, measurement in spastic paralysis, 542.
Quadriplegia, recovery from following spontaneous dislocation of atlanto-axial joint, 290.

Radioisotope studies in neuromuscular disease. 2. Studies in muscular dystrophy and myotonia dystrophica with sodium^{22} and potassium^{42}, 201.
Reflections on the pathogenesis of progressive muscular dystrophy, 333.
Reserpine,
effect on human electroencephalogram, 56.
treatment of headache with, 805.
Ribosuria in muscular dystrophy, 412.
RISA, systemic absorption from subarachnoid space, 555.

Sarcoma, osteogenic of tibia, metastatic to brain, 69.
Seizures,
nocturnal, Desoxyn therapy for, 236.
purpura of head and neck following, 516.
relation to pseudohypoparathyroidism, 297.
temporal lobe, in monkey, 329.
Sensory changes in the upper limb during ischemia in tetany, 461.
Sensory defect, prognostic value in rehabilitation of hemiplegics, 407.
Sensory system examination, after hemispherectomy, 390.
SKF No. 2599, new anticonvulsant, 700.
Spasticity, chlorpromazine and, 856.
Spinal cord, compression in achondroplastic dwarfs, 875.
Spondylitis, rheumatoid, recovery from quadriplegia in, 290.
Spontaneous bilateral labyrinthine deficit, 654.
Spontaneous carotid thrombosis — unusual arteriographic appearance, 821.
Spontaneous dislocation of the atlanto-axial joint in rheumatoid spondylitis — recovery from quadriplegia following surgical decompression, 290.
Spontaneous intraspinal hemorrhage and paraplegia complicating Dicumarol therapy, 600.
S. S. Korsakoff's psychic disorder in conjunction with peripheral neuritis — a translation of Korsakoff's original article, 394.
Status marmoratus of the thalamus and striatum – associated with athetosis and dystonia, 139.
Study of free amino acids in the human cerebrospinal fluid, 767.
Subarachnoid hemorrhage, manifesting acute cerebral venous occlusion, 675.
Subdural empyema, acute, treatment, 663.
S. Weir Mitchell on gunshot wounds and other injuries of nerves, 468.
Swelling of damaged brain tissue, 490.
Syndrome of intermittent insufficiency of the basilar arterial system, 625.
Syndrome of Klüver and Bucy – reproduced in man by bilateral removal of the temporal lobes, 373.
Systemic absorption and urinary excretion of RISA from subarachnoid space, 555.

Temporal lobe,
bilateral removal, and syndrome of Klüver and Bucy, 373.
seizures in the monkey, 329.
Tetanus, cephalic, 381.
Tetany, sensory changes during ischemia in, 461.
Thalamus and striatum, status marmoratus of, 139.
Thorazine, effect on cells in vitro, and toxicity assays, 787.

Treatment of
acute subdural empyema, 663.
Bell's palsy with cortisone and other measures, 882.
chronic cervical disk protrusions, 494.
headache with reserpine, 805.
intracerebral hematomas in young and middle-aged patients, 567.
muscular dystrophy with amino acids and vitamins, 887.
myasthenia gravis, 728.
parkinsonism with Kemadrin, 273.
parkinsonism with Parsidol, 197.
Treatment reviews, 494, 663, 728, 882.

Trigeminal neuralgia, and combined glossopharyngeal, 1.
Tumor,
hypothalamic—symptomatology, regional anatomy, and neurosecretion, 160.
nasopharyngeal, neurologic manifestations of, 868.
parotid gland, cerebral metastases from, 435.

Vomiting: neural mechanisms and control by chlorpromazine, 645.

Western equine and St. Louis encephalitis—preliminary report of a clinical follow-up study in California, 223.
